Paul Tokiwa Cartage Limited, 27102
Unit 6,
1589 The Queensway,
Etobicoke, Ontario,

IN THE MATTER OF the application of Paul Tokiwa Cartage Limited for a Class 'A' public commercial vehicle operating licence, which was heard by the Ontario Highway Transport Board at its Chambers in Toronto on August 17th, 1976; and

IN THE MATTER OF the Ontario Highway Transport Board's Order dated September 10th, 1976.

NOTICE OF MOTION

TAKE NOTICE that an application will be made on behalf of the Respondents before the Ontario Highway Transport Board at its Chambers in Britannica House, M5S 2T5, on such day and at such time as the Board may direct for an Order revoking the decision of G. J. Norton, Esquire, set out in the Board's certificate dated September 10th, 1976, wherein the Board granted the application, and directing a rehearing of the application by way of argument only on the following grounds:

- (a) The decision of the learned presiding Member was wrong in law and it was against the evidence and the weight of the evidence;
- (b) The learned presiding Member erred in refusing even to consider previous written decisions of the Board in similar applications which were referred to him in argument;
- (c) The learned presiding Member erred in holding that he was bound by only the evidence of service the Respondents were able to give, and failed in so holding to consider his proper role as the presiding Member of an expert tribunal;

- (d) The learned presiding Member erred in not dismissing the application after finding that the applicant had succeeded to the business carried on by previous public commercial vehicle operating licence holders without fully satisfying the claims of the unsecured creditors of such licence holders;
- (e) The learned presiding Member erred in granting a certificate authorizing the issuance of a Class 'A' public commercial vehicle operating licence in circumstances in which the Applicant's own evidence established that it had acquired the business of two previous Class 'D' licence holders and the shippers for whom such Class 'D' licences had formerly been issued constituted the basis of the applicant's case in that a Class 'A' operating licence will enable the Applicant to conduct an operation considerably more extensive than the evidence supported; and
- (f) Upon such further and other grounds as Counsel may advise.

AND TAKE NOTICE that in support of the Motion the original application will be read, the proceedings and the exhibits filed herein will be referred to and such further and other material as Counsel may advise and the Board permit will be referred to or read.

Dated at Toronto this 4th day of October, 1976.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

CITY OF TORONTO, MUNICIPALITY OF METROPOLITAN TORONTO

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Colleges and Universities that an undertaking, by an institution mentioned in Schedule A of this Order, namely:

a program to provide additional physical facilities and to renovate, modify or adapt physical facilities or land of that institution with the approval of the Minister of Colleges and Universities,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be interfered with and damaged when individual projects either underway or to be started are delayed or when deadlines imposed by the academic year are not met (frequently work can only be completed efficiently during vacations) through having to fund increased costs of projects and also having to fund extra expenditure for leased premises when permanent facilities are not available to accommodate essential activities or academic programs.
2. The institution will be damaged by either:
 - (a) having to accommodate essential activities and academic programs in premises inadequate for the purpose; or
 - (b) being unable to accommodate important activities or academic programs.
3. Students will be damaged by the provision of academic programs in inadequate facilities, or by such programs not being available for lack of facilities; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The interference which would be caused by the application of this Act to individual projects currently underway or to be started would be undue and not in the public interest.

2. Individual projects under this program are already subject to a stringent control procedure in the Ministry of Colleges and University in which:

— the academic need for the program is a prerequisite of approval;

— approval is not issued unless an architectural examination and report has demonstrated that each project is adequate for its purpose and making all reasonable provision to avoid detrimental impact on the environment.

This exemption is subject to the following terms and conditions:

1. That this exemption does not extend to the establishment of a new campus by an institution or the construction of facilities on an existing campus on which no facilities for the institution have previously existed.

This order comes into force and has effect on and after the day upon which section 5 of the Act is proclaimed in force.

Dated at Toronto this 14th day of October, 1976.

The Activity of construction and contracting for the construction of Capital Construction and Lease-Purchase projects of the Ministry of Government Services which are of a minor nature, having an estimated completion cost of less than \$1,000,000 or involving the replacement or reconstruction of existing structures or facilities where the new structure or facility will be located on the same site as the structure or facility replaced and will have substantially the same purpose, use, and capacity as the structure or facility replaced,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act the following injury, damage or interference with the person and property indicated will occur:

The Crown will be interfered with and damaged by the undue delay and expense required to prepare environmental assessments for projects that are primarily of a minor nature and have no significant adverse environmental effects or have no significant new environmental effects; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

1. The undertaking is of a minor nature and is unlikely to have any significant adverse effects or will not have any significant new environmental effects and therefore the interference with the Ministry of Government Services' programs which would be caused by the application of the Act would be undue;

This exemption is subject to the following terms and conditions:

1. (1) The Minister of Government Services shall, within 60 days of this Order being issued

and at least once every six months thereafter file with the Director of the Environmental Approvals Branch of the Ministry of the Environment, a list of all projects exempt pursuant to this Order, which list shall indicate the proposed dates of commencement and completion for each project and be kept with the records of Environmental Assessments and made available to the public in the same way as such records; and

1. (2) It is not necessary to include in a list mentioned in subsection 1 any project listed on a previous list which is being proceeded with in accordance with the timetable specified in such list.

Having been advised of an existing environmental screening process implemented by the Ministry of Transportation and Communications with respect to projects commenced before the Act came into force; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking was well underway before the Act came into force and had reached a sufficiently advanced stage that the interference with the Provincial road construction program of the Ministry of Transportation and Communications with respect to projects named on the attached list, which would be caused by the application of the Act would be undue; and
2. The protection, conservation and wise management of the environment will be sufficiently provided for by the environmental screening process already followed by the Ministry of Transportation and Communications as part of its policy;

This exemption is subject to the following terms and conditions:

1. For those projects associated with this portion of the program of Provincial road construction, construction of which will not be substantially completed by the 1st day of January, 1980, the Ministry of Transportation and Communications shall prepare and submit an Environmental Assessment;

2. Where an Environmental Assessment is submitted for a project pursuant to Condition 1, the project shall be deemed to be a separate undertaking from the program;
 3. Where a project associated with this portion of the program of Provincial road construction has been divided into sections for the purpose of design and construction, and one or more of these sections will be constructed at some time after January 1st, 1980, Conditions 1 and 2 do not apply to the sections which will be substantially completed by the 1st day of January, 1980; and
 4. (1) That the Minister of Transportation and Communications:
 - (a) prepare at least quarterly, a list of all proposed projects in the program indicating the proposed dates of commencement and completion for each project and which, if any, of the projects an Environmental Assessment is to be prepared for; and
 - (b) send a copy of each such list to the Director of the Environmental Approvals Branch of the Ministry of the Environment to be kept with the records of Environmental Assessments and made available to the public in the same way as such records;
 4. (2) It is not necessary to include in a list mentioned in subsection 1, any project listed in a previous list which is being proceeded with in accordance with the timetable specified in such list.
- This order comes into force and has effect on and after the day upon which Sections 5 of the Act is proclaimed in force.
- Dated at Toronto this 14th day of October, 1976.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from Ontario Hydro that an undertaking, namely:

The program of planning, designing, construction, operating and maintaining communication towers,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act the following injury, damage or interference with the persons and property indicated will occur:

Ontario Hydro will be interfered with and damaged by the undue delay and expense required to prepare environmental assessments for projects that are primarily of a minor nature; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

1. The immediate application of the Act to individual projects within the undertaking would not allow Ontario Hydro sufficient time to implement environmental assessment procedures for the undertaking as well as the other undertakings of Ontario Hydro which are subject to the Act and the individual projects within the undertaking can be examined, in many cases, collectively under a program environmental assessment covering some or all of the affected projects; and

This exemption is subject to the following terms and conditions:

1. That Ontario Hydro shall submit a program environmental assessment covering this undertaking before April 1st, 1978; and
2. This exemption shall terminate on the earlier of the date on which approval to proceed with the undertaking is received under the Act or April 1, 1979.

2. Ontario Hydro will be interfered with and damaged by the undue delay and expense required to prepare individual environmental assessments for projects that are urgent and primarily of a minor nature and have no significant consequences on the environment; and

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

O. Reg. 864/76.

Calculation of Fees for Pupils, 1977.

Made—October 8th, 1976.

Approved—October 27th, 1976.

Filed—October 29th, 1976.

REGULATION MADE UNDER
THE EDUCATION ACT, 1974

CALCULATION OF FEES FOR PUPILS, 1977

1. In this Regulation,

- (a) "current cost of operating" means, in respect of a board, its current cost of operating for 1977 as defined in section 1 of Ontario Regulation 861/76 except that, in respect of a board appointed under section 68 of the Act, the revenue fund expenditure for 1977 for all furniture and equipment and all debt charges as defined in section 1 of such Regulation are excluded therefrom;
- (b) "pupil accommodation charge" means pupil accommodation charge as defined in section 1 of Ontario Regulation 861/76.

2.—(1) Subject to subsection 2 and to sections 3 and 6, where a board provides instruction for pupils whose fees are receivable from another board or from Canada, the fees shall be calculated by,

- (a) dividing the current cost of operating in respect of elementary schools or secondary schools, as the case may be, of the board for the year in which it provides the instruction by the average daily enrolment for such year of pupils enrolled at such schools; and
- (b) multiplying the average daily enrolment of the elementary or secondary school pupils whose fees are receivable from the other board or from Canada, as the case may be, by the sum of,
 - (i) the amount determined under clause *a*, and
 - (ii) except where the board that provides the instruction is a board appointed under section 68 of the Act, the pupil accommodation charge for such pupils.

(2) Where a board has entered into an agreement under subsection 2 of section 162 of the Act that provides for a payment by the Crown in right of Canada to provide classroom accommodation for a specified number of pupils, the

pupil accommodation charge for each such pupil shall be deemed to be zero.

3. Where a board appointed under section 68 of the Act operates a school in a centre for the treatment of cerebral palsy, a crippled children's treatment centre, a hospital or a sanatorium and provides instruction therein for pupils whose fees are receivable from any source, the fee for such a pupil shall be calculated by,

- (a) adding to the current cost of operating of the board for the year in which it provides the instruction, the portion approved by the Minister for grant purposes of the expenditure for such year for the transportation of pupils, and deducting from the total thereof the general legislative grants payable to the board for such year except a grant that is equal to the cost of education;
- (b) dividing the amount determined under clause *a* by the sum of the days on which each pupil is enrolled at the school; and
- (c) multiplying the amount determined under clause *b* by the number of days for which the pupil whose fee is being calculated is enrolled at the school.

4. Where a board, except a board appointed under section 68 of the Act, provides instruction for a pupil in respect of whom fees are required to be paid, other than a pupil whose fees are receivable from another board or from Canada, the fees payable by or on behalf of the pupil shall be such as the board may prescribe but, subject to subsection 4 of section 6, shall not exceed the product obtained by multiplying the average daily enrolment of such pupil for the year in which such instruction is provided by the quotient obtained by dividing,

- (a) the sum of the products, for each municipality and part of territory without municipal organization in the jurisdiction of the board that provides the instruction, of the assessment for the preceding year that is rateable for public, secondary or separate school purposes, as the case may be, the mill rate for such year for such purposes, and 0.001,

by,

- (b) the average daily enrolment for such preceding year of resident-internal pupils and resident-external pupils of the board that provides the instruction.

5. Notwithstanding section 4, where in any year a board provides instruction for a pupil in respect of whom fees are required to be paid and whose parent or guardian does not reside in Ontario, the fees payable by or on behalf of the pupil shall be such as the board may prescribe but, subject to sub-

section 4 of section 6, shall not exceed the product obtained by multiplying,

- (a) one-tenth of the sum of the quotient determined under clause *a* of section 2 and the pupil accommodation charge for the pupil,

by,

- (b) the number of months during which the pupil is enrolled in such year in a school operated by the board that provides the instruction.

6.—(1) In this section “high-cost program” means,

- (a) a program where French is the language of instruction;
- (b) a program of special education;
- (c) a program for trainable retarded children; and
- (d) a program that includes technical or occupational courses that qualify in a school year for three or more credits toward the Secondary School Graduation Diploma.

(2) Where the ratio of the average daily enrolment of elementary school pupils whose fees are receivable from another board or from Canada and who are registered in a high-cost program to the average daily enrolment of elementary school pupils whose fees are receivable from the other board or from Canada, as the case may be, is greater than the ratio of the average daily enrolment of elementary school pupils registered in such high-cost program to the average daily enrolment of elementary school pupils registered at the schools of the board that provides the instruction, the fee for a pupil registered in a high-cost program, as determined by dividing the fees receivable in respect of elementary school pupils from the other board or from Canada, as the case may be, under section 2 by the average daily enrolment of such pupils, may be multiplied by a factor to be agreed upon between the board that

provides the instruction and the board from which or the party from whom the fee is receivable.

(3) Subsection 2 applies *mutatis mutandis* in the case of secondary school pupils.

(4) Where a pupil to whom section 4 or 5 applies is registered in a high-cost program, the maximum fees payable in respect of such pupil shall be determined by multiplying the maximum fees under section 4 or 5, as the case may be, by a factor to be agreed upon between the board that provides the instruction and the party from whom the fees are receivable.

(5) Where under this section the board that provides the instruction and the other board or party concerned cannot agree upon a factor, the factor shall be determined by three arbitrators, one arbitrator appointed by the board that provides the instruction, one arbitrator appointed by the board from which or the party from whom the fee is receivable and one arbitrator appointed by the Minister, and the decision of the arbitrators or a majority of them is final and binding upon the board that provides the instruction and the other board or party concerned.

7. Where a board, except a board appointed under section 68 of the Act, provides an education program in a hospital or treatment centre that is not referred to in section 28 of Ontario Regulation 861/76, the fee payable in respect of a pupil who is not qualified to be a resident pupil of the board and for whom such an education program is provided shall be such as may be agreed upon between the board that provides the program and the parent or guardian of the pupil or the board of which the pupil is qualified to be a resident pupil.

8. This Regulation applies to fees for pupils in respect of the year 1977.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

TOWNSHIP OF NIPIGON, DISTRICT OF THUNDER BAY

To Wit:

PURSUANT to the provisions of Section 569 of *The Municipal Act*, R.S.O. 1970, Chapter 284.

AND BY VIRTUE OF A WARRANT issued by the Reeve under the Seal of The Corporation of the Township of Nipigon, to me directed and dated March 16th, 1976, commanding me to levy upon and sell the lands mentioned in the following list for arrears of taxes and costs thereon, I hereby give notice that unless such arrears of taxes and costs are sooner paid, I shall proceed to sell by public auction the said lands, or as much of them as may be necessary for the payment of the said taxes and costs, at the Municipal Building, Nipigon, Ontario, on Wednesday, the 9th day of March, 1977, at the hour of two o'clock in the afternoon.

An adjourned sale, if necessary, will be held on Wednesday, the 23rd day of March, 1977, at the same hour and place, when the Corporation may purchase any of the lands remaining unsold.

All of the lands are patented.

F. G. WHEELER,
Treasurer.
